3. Association of Directors of Medical Student Education in Psychiatry (ADMSEP)
Diversity, Equity, Inclusion, and Anti-Racism Resources [this document]
https://www.admsep.org/htmly/2020/10/diversity-equity-and-inclusion-resources

4. Accreditation Council for Graduate Medical Education (ACGME)
https://www.acgme.org/What-We-Do/Diversity-Equity-and-Inclusion
https://www.acgme.org/what-we-do/diversity-equity-and-inclusion/department-of-
diversity-equity-and-inclusion-updates/

a. ACGME Common Program Requirements (CPR) (all Residency Training
Programs of all specialties)
https://acgme.org/Portals/0/PFAssets/ProgramRequirements/CPRResidency2020.pdf

b. ACGME Common Program Requirements (CPR) (all Fellowship Training
Programs of all specialties)
https://acgme.org/Portals/0/PFAssets/ProgramRequirements/CPRFellowship2020.pdf

The ACGME’s Common Program Requirements address diversity, equity, and
inclusion and expectations for Sponsoring Institutions and programs. Individual
Review Committees review multiple data points provided by
Sponsoring Institutions and programs annually to determine substantial
compliance with all ACGME requirements including the following:

- Section I.C. Addresses recruitment and retention of a diverse and inclusive
  workforce.
- Requirement II.A.4.a).10. specifies the need for program directors to cultivate
  an environment in which residents and fellows can raise concerns and
  provide feedback without fear of intimidation or retaliation.
- Section V begins to address evaluation and asks programs to collect data on
  ultimate board certification rates of its graduates, with the intent of decreasing
  reliance on first time pass rates as a measure of excellence.
- Requirement VI.B.6. states that programs and Sponsoring Institutions must
  provide a professional, and respectful environment free from discrimination,
  harassment, mistreatment, abuse, or coercion.

1. *** CPR on diversity and inclusion (new, effective 7/1/19; renewed 7/1/22) in
both documents:
   "IC. The program, in partnership with its Sponsoring Institution, must
   engage in practices that focus on mission-driven, ongoing, systematic
recruitment and retention of a diverse and inclusive workforce of residents (if present), fellows, faculty members, senior administrative staff members, and other relevant members of its academic community. (Core)

Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution’s mission and aims. The program’s annual evaluation must include an assessment of the program’s efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c)."

2. *** CPR on ACGME Competencies [bolded key terms added]
   a. Professionalism
   “Residents must demonstrate competence in respect and responsiveness to diverse patient populations, including but not limited to diversity in gender, age, culture, race, religion, disabilities, national origin, socioeconomic status, and sexual orientation.”

   b. Patient Care and Procedural Skills
   “Background and Intent: Quality patient care is safe, effective, timely, efficient, patient-centered, equitable, and designed to improve population health, while reducing per capita costs. (See the Institute of Medicine [IOM]’s Crossing the Quality Chasm: A New Health System for the 21st Century, 2001 and Berwick D, Nolan T, Whittington J. The Triple Aim: care, cost, and quality. Health Affairs. 2008; 27(3):759-769.)."

   c. Medical Knowledge
   “Residents must demonstrate knowledge of established and evolving biomedical, clinical, epidemiological and social-behavioral sciences, as well as the application of this knowledge to patient care.”

   d. Interpersonal and Communication Skills
   “Residents must demonstrate competence in communicating effectively with patients, families, and the public, as appropriate, across a broad range of socioeconomic and cultural backgrounds.”

   e. Systems-based Practice
   “Residents must demonstrate an awareness of and responsiveness to the larger context and system of health care, including the social determinants of health, as well as the ability to call effectively on other resources to provide optimal health care.”

c. Clinical Learning Environment Review (CLER)
https://www.acgme.org/What-We-Do/Initiatives/Clinical-Learning-Environment-Review-CLER
Focus on “Health care quality (including health care disparities)” in these documents:
- Executive Summary – National Report of Findings 2018
- CLER Pathways to Excellence Version 2.0

CLER National Report of Findings 2021
“In general, clinical learning environments do not appear to engage all their residents and fellows in their organization’s efforts to design, evaluate, and improve patient safety and health care quality, including health care disparities.”
https://www.acgme.org/globalassets/pdfs/cler/2021clernationalreportoffindings.pdf

2020 ACGME Strategic Plan Summary, 10/20 [now mentions diversity, inclusion, and equity]

e. ACGME Equity Matters

f. Barbara Ross-Lee, DO, Diversity, Equity, and Inclusion Award “recognizes efforts to achieve diversity, equity, and inclusion in the graduate medical education (GME) community…The award recognizes ACGME-accredited Sponsoring Institutions and programs, as well as specialty organizations working to diversify the underrepresented physician workforce and create inclusive workplaces that foster humane, civil, and equitable environments.”
https://www.acgme.org/what-we-do/initiatives/awards/diversity-and-inclusion-award/

g. ACGME statement on Medical Education Racial Discrimination Allegations (2/17/2021)
https://www.acgme.org/newsroom/2021/2/acgme-statement-on-medical-education-racial-discrimination-allegations/

5. *** Liaison Committee on Medical Education (LCME) [bolded key terms added]
https://lcme.org/publications/#Standards
The LCME accredits medical education programs leading to the M.D. degree in the United States and Canada. Several LCME accreditation standards are relevant to cultural competence, disparities and diversity in a medical school setting.

**Standard 3: Academic and Learning Environments**

**3.3 Diversity/Pipeline Programs and Partnerships**

A medical school has effective policies and practices in place, and engages in ongoing, systematic, and focused recruitment and retention activities, to achieve mission-appropriate diversity outcomes among its students, faculty, senior administrative staff, and other relevant members of its academic community. These activities include the use of programs and/or partnerships aimed at achieving diversity among qualified applicants for medical school admission and the evaluation of program and partnership outcomes.

**3.4 Anti-Discrimination Policy**

A medical school has a policy in place to ensure that it does not discriminate on the basis of age, disability, gender identity, national origin, race, religion, sex, sexual orientation or any basis protected by federal law.

**3.5 Learning Environment/Professionalism** [Both this standard and one below could include issues related to diversity and inclusion, discrimination, racism, and bias.]

A medical school ensures that the learning environment of its medical education program is conducive to the ongoing development of explicit and appropriate professional behaviors in its medical students, faculty, and staff at all locations. The medical school and its clinical affiliates share the responsibility for periodic evaluation of the learning environment in order to identify positive and negative influences on the maintenance of professional standards, develop and conduct appropriate strategies to enhance positive and mitigate negative influences, and identify and promptly correct violations of professional standards.

**3.6 Student Mistreatment**

A medical school develops effective written policies that define mistreatment, has effective mechanisms in place for a prompt response to any complaints, and supports educational activities aimed at preventing mistreatment. Mechanisms for reporting mistreatment are understood by medical students, including visiting medical students, and ensure that any violations can be registered and investigated without fear of retaliation.

**Standard 7: Curricular Content**

**7.1 Biomedical, Behavioral, Social Sciences**
The faculty of a medical school ensure that the medical curriculum includes content from the biomedical, behavioral, and socioeconomic sciences to support medical students' mastery of contemporary medical science knowledge and concepts and the methods fundamental to applying them to the health of individuals and populations.

7.5 **Societal Problems** [This section could include the social determinants of health and mental health.]

The faculty of a medical school ensure that the medical curriculum includes instruction in the diagnosis, prevention, appropriate reporting, and treatment of the medical consequences of common societal problems.

7.6 **Cultural Competence and Health Care Disparities**

The faculty of a medical school ensure that the medical curriculum provides opportunities for medical students to learn to recognize and appropriately address biases in themselves, in others, and in the health care delivery process. The medical curriculum includes content regarding the following:

- The diverse manner in which people perceive health and illness and respond to various symptoms, diseases, and treatments
- The basic principles of culturally competent health care
- Recognition of the impact of disparities in health care on all populations and potential methods to eliminate health care disparities
- The knowledge, skills, and core professional attributes needed to provide effective care in a multidimensional and diverse society

6. **American Psychiatric Association (APA)**

a. ***Diversity and Health Equity***
   https://www.psychiatry.org/psychiatrists/cultural-competency

   **Section 1: Education**: CME webinars, toolkits, fact sheets and other educational content specifically for diverse and vulnerable populations.

   **Section 2: Engagement Opportunities**: APA components and caucuses, awards, resident/fellow fellowships, and networking opportunities aimed at supporting and increasing diversity within APA and psychiatry.

   **Section 3: Advocacy and News**: Relevant press releases, position statements, and advocacy resources to help psychiatrists advocate for the needs of minority and underserved populations.

f. 11 Tips to Integrate Health Equity Content into Medical Education (key take home points)
    • Give cultural context to case-based learning.
    • Discuss how systemic racism and bias cause health disparities.
    • Call attention to the demographics tables in research.
    • Be inclusive.
    • Differentiate facts from myths.
    • Scrap stand-alone lectures on health equity.
    • Factor in current events and popular culture.
    • Promote diversity among faculty.
    • Don’t ask a single person to speak for their entire community.
    • Ask for help, regardless of your level of expertise.
    • Lean into the issue.

From the Executive Summary: "We found that at least 894 school districts, enrolling 17,743,850 students, or 35% of all K–12 students in the United States, have been impacted by local anti “CRT” efforts. Our survey and interviews demonstrate how such restriction efforts have been experienced inside schools as well as districts. We found that both state action and local activity have left many educators afraid to do their work."

John Oliver on Critical Race Theory: In its season 9 premiere on Sunday 2/20/22, HBO’s Last Week Tonight with John Oliver did an excellent deep dive into critical race theory—honing in on what CRT is, what it isn’t, and why it’s being attacked.

Governor DeSantis Elevates Civil Discourse and Intellectual Freedom in Higher Education (1/31/2023)

“Specifically, the 2023 proposal raises the standards of learning and civil discourse of public higher education in Florida by:

- Prohibiting higher education institutions from using any funding, regardless of source, to support DEI, CRT, and other discriminatory initiatives;
- Requiring institutions’ presidents and boards of trustees to take ownership of hiring and retention decisions, without interference from unions and faculty committees;
- Allowing institutions’ presidents and boards of trustees to conduct a post-tenure review of a faculty member at any time with cause;
- Prohibiting postsecondary institutions from using discriminatory political filters, including political loyalty oaths and DEI statements, in the hiring process;”

Here is an article to help contextualize the proposed legislation:
Analysis by PEN America (2/24/23):
and

AAUP and American Federation of Teachers “Florida Bill Would Destroy Higher Education as We Know It” (2/27/23):
https://www(aaup.org/sites/default/files/Florida%20statement%20Feb%202023_0.pdf

American Historical Association and more than 81 other organizations in a recent statement opposing Florida House Bill 999, which would prohibit public colleges and universities from funding projects related to diversity, equity, and inclusion, prohibit diversity statements from being included in hiring and promotion processes, ban gender studies from being offered as a major or minor, and bar study of critical race theory. The AHA writes: “What has previously best been characterized as unwarranted political intervention into public education has now escalated to an attempt at a hostile takeover of a state’s system of higher education.” (3/3/2023)

   **b. Multimedia About Health Disparities**
The PhenX Social Determinants of Health (SDOH) Assessments Collection, now available in the PhenX Toolkit, contains 19 new protocols which expand upon the previous SDOH collection to help measure upstream factors that shape behaviors and health outcomes. This collection provides a common currency for studying social determinants of health across public health research studies. Researchers are encouraged to use this collection to examine the role of SDOH and the factors related to health inequities and enable effective interventions to reduce health disparities.

2. Telehealth and Virtual Care:

3. **Diversity, Equity, and Inclusion Competencies Across the Learning Continuum (7/2022):** “These cross-continuum competencies help educators design or adapt curricula and help educators and learners in their individual professional development and DEI journeys. The competencies are for use in:
- Engaging health care professionals in collaborative DEI discussions, including cross-continuum and cross-discipline colleagues.
- Conducting gap analyses of local curricula and training programs.
• Self-assessing and planning individual professional development.
• Developing curricular learning objectives.
• Developing assessment tools.
• Furthering research and scholarship in medical education and DEI.
• Guiding the strategic integration of DEI into the formal curricula and the clinical learning environment.”

6. ***ACGME
Equity Matters (7/2022 launch) is “an initiative that supplies a framework for continuous learning and process improvement in the areas of diversity, equity, and inclusion (DEI) and antiracism practices. The initiative aims to drive change within graduate medical education (GME) by increasing physician workforce diversity, and building safe and inclusive learning environments, while promoting health equity by addressing racial disparities in health care and overall population health.”

27. State of California mandated CME to include implicit bias content starting 1/22.
Implicit bias is defined in AB 241 as “the attitudes or internalized stereotypes that affect our perceptions, actions, and decisions in an unconscious manner, exists, and often contributes to unequal treatment of people based on race, ethnicity, gender identity, sexual orientation, age, disability, and other characteristics.”
AB 241 is designed to mitigate harmful racial and ethnic disparities that exist in the delivery of health care and help ensure that all patients receive fair treatment and quality health care. The bill requires organizations that accredit CME courses in California to develop standards for CME providers to follow. [https://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill_id=201920200AB241](https://leginfo.legislature.ca.gov/faces/billTextClient.xhtml?bill_id=201920200AB241)
